

GDPR Readiness Assessment Service

Introduction

Marathon provide consultancy services to address the business, legal, financial and regulatory risks associated with Information Security including Cybercrime and Data Protection. Our services are designed to help clients understand their exposure to risks and the potential impact of those risks within the context of their organisations. We also provide guidance aimed at reducing risk, and work with our clients to ensure that their policies and controls adhere to appropriate regulation and drive compliance, education and awareness throughout their organisations.

GDPR Readiness Assessment Service

Marathon's GDPR Readiness Assessment Service is aligned to UK regulator's (ICO) own advice on how UK organisations should prepare and get ready for when the GDPR becomes law on the 25th May 2018. The Information Commissioners Office (ICO), have identified 12 key areas of GDPR which is the focus for Readiness Assessment workshop which is included in the service. Marathon also include additional analysis for other key areas of GDPR including business risk and information security.

Why Marathon?

Marathon's Information Security Group have vast experience of helping organisations assess the business risks associated with Cyber threats and security breaches through the use of best practice information security policies and procedures

Our consultants are Cyber Essentials Certified Assessors, GDPR Practitioners, ISO 27001 (information security standard) and ISO 22301 (business continuity standard) auditors.

MARATHON PROFESSIONAL SERVICES
